

Your top 10 employability skills

The skills listed here have been identified by STEM Learning* as the top 10 skills that employers are looking for at the moment.

Use the spaces to note down your experience in each skill, particularly focusing on when you've achieved results from using the skill. You can add your own skills in the last section if you have some role-specific skills that you think might be helpful.

You can use this for job applications and interviews.

Your behaviour at work:
